

REMARKS

This case has been carefully reviewed and analyzed in view of the Office Action dated 28 December 2005. Responsive to that Office Action, a Terminal Disclaimer to Obviate a Double Patenting Rejection Over a "Prior" Patent is submitted herewith accompanied by the appropriate Terminal Disclaimer fee.

In the Office Action, the Examiner objected to the Disclosure for containing certain informalities. More specifically, the Examiner stated that the cross-reference information as to related Applications must be updated to reflect the co-pending Application's proper status. The Disclosure is hereby amended to reflect the fact that this case's parent Application, namely Application Number 09/674,602, is now U.S. Patent Number 6,628,673.

The Examiner also noted the need to identify the two other Applications referred to in the Disclosure by appropriate Application Numbers. Accordingly, Application Numbers 09/416,098 and 09/422,829 have been incorporated by amendment into the paragraph in question.

Also in the Office Action, the Examiner rejected Claims 32-81 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 1-10 of Patent Number 6,628,673. As mentioned, a Terminal Disclaimer and appropriate fee are submitted herewith to obviate this rejection.
